Mr. Chas E S Gerstorf
1825 N Capitol St
Washington 2, D C

TO WHOM BEAUTIFUL IRIS MAY BE OF CONCERN:

Don't be alarmed by this "new look" salutation! We still consider you our good friends and customers, and we still like informality, but we felt our greeting had to be changed. Now that acquaintances have been renewed, let's take a little peek at what this booklet has in store.

The last expensive catalog we printed was the one for 1951. Since then we have found it quite comfortable not having to work until late Fall just to pay for the catalogs and your response to our small folders has been very gratifying. This year we have decided to be more adventuresome and list every variety appearing in our Display Garden, hoping our stock will be sufficient, to fill the orders, or hoping it won't, depending upon your point of view.

And so you will find 402 "Iristocrats" listed here—the best of the new, middle-aged and older varieties. If it weren't so painful, an additional 150 varieties we wish you had, and we "hadn't" could be listed. If you're interested in some real old ones, please, please, write for more particulars.

For the third successive year, you are invited to

MAKE YOUR OWN COLLECTIONS

The collection offer on all varieties, with the exception of those marked Net, is the same—figure the total amount of your collection, then deduct your collection discount of $\frac{1}{3}$ and send us the balance. For example, on a collection totaling \$7.50, deduct the \$2.50 and send us \$5.00.

AND DON'T FORGET YOUR GIFT IRIS

We've included gift iris valued at $\frac{1}{2}$ of our orders for years but this year we'll go a little further. You may specify your gift iris, equal at list price to $\frac{1}{2}$ the amount of your order, and if we possibly can, we'll comply with your request.

Your invitation to visit us is always open. To reach our gardens from Portland, drive out Canyon Road and continue West two miles beyond Beaverton to Huber Avenue, then turn left and follow Huber Avenue South two miles to our gardens. It's a pleasant drive over hard-surfaced roads. The normal blooming season for our Iris is from the middle of May to the first of June.

Sincerely,
MRS. HOWARD WEED

TERMS

REMITTANCE by check, money order or draft please. Orders are filled from July first until late Fall in the sequence received, unless a certain time limit is given. Rhizomes guaranteed to arrive in healthy condition and all are state inspected. Shipments of \$3.00 and over will be postpaid, any under that amount please send 40c for postage.

DEFINITIONS OF TERMS USED

Dykes Medal is the highest award given to an iris by the American Iris Society. One given each year.

In listing the iris here we give first the variety name, then name of hybridizer, year introduced, blooming season and height in inches.

E early, M mid-season, L late.

JOIN THE AMERICAN IRIS SOCIETY

You will receive four wonderful bulletins each year for four dollars. Send your check to the Secretary of the Society at Franklin Road, Brentwood, Tenn., or include the amount with your order and we will gladly send it in for you.

34 PRAIRIE SUNSET		100 MING YELLOW

IRIS CULTURE

Iris are one of the easiest perennials to grow, requiring very little attention, but will repay you for any extra attention you give them.

Sunny well drained soil is best to plant in, working the ground loosely to a depth of about 10 inches, spread the roots of the rhizome, plant just under the surface tamping the soil down firmly. Water the soil before planting and remember not to plant deep as the Iris like sunlight.

Do not over fertilize, bonemeal is good always or use anything you would have, sparingly and not next to rhizome.

For acid soil add lime, sand preferably for heavy soil.

CANADIAN CUSTOMERS

Send to the Department of Agriculture at Ottawa for the necessary import permit.
